PROFILE

Digital Project Manager experienced in project management and IS transformation, I combine a solid foundation in Planning & Project Management with technical expertise in Web Development. My strength lies in my ability to translate complex business needs into actionable technical specifications.

My strength lies in my ability to translate complex business needs into actionable technical specifications. Thanks to my hybrid profile, I master the entire product lifecycle, from managing agile teams to strategic vision. Trained in Generative Artificial Intelligence and Prompt Engineering, I design digital solutions placing user experience and performance at the heart of the strategy. My holistic approach allows me to manage large-scale projects, from design to technical deployment, to create solutions with lasting impact.

KEY SKILLS

- **Project Management & Strategy:** Project framing, Writing of specifications (PRD), Planning (Gantt/Milestones), Risk management, Budget tracking, and KPI-driven management.
- **Product Ownership & Agile:** Scrum/Kanban methodologies, Backlog management and prioritization, User story writing, User flow design, Facilitation of agile rituals.
- **Technical Expertise & Design:** **Front-End** Development (JavaScript, Bootstrap, Tailwind, React), **Back-End** Development (Python), Data architecture (LocalStorage, API), WordPress, UI/UX Design
- **AI & Innovation Expertise:** Generative AI (LLM, Claude, Google Gemini), Prompt Engineering, Model Context Protocol (MCP), AI workflow design, process analysis and automation, AI acculturation and change management.
- **Tools & Data:** Notion, Trello, Google Workspace, Git, GitHub, Excel, Microsoft Suite, EmailJS.

PROFESSIONAL EXPERIENCE

Project Manager

Nov. 2024 - May 2025

Education and Environment NGO - Cotonou, Benin

- **Strategic Management:** Design of a large-scale international project "Community Resilience to Climate and Ocean Challenges in Benin", involving institutional stakeholders and local authorities.
- **Project Engineering:** Full structuring of the technical and financial dossier leading to the acquisition of funding from the Pulitzer Center.
- **Multi-stakeholder Management:** Coordination of information flows between field experts, funding organizations, and communication teams.
- **Reporting:** Implementation of an impact indicator tracking system and writing of strategic progress reports.

Project Monitoring and Development Lead

Dec. 2023 - Nov. 2024

LBASSUR - Cotonou, Benin

- **IT Governance:** Implementation and management of KPI dashboards to ensure transparency of operational and economic performance.
- **Process Optimization:** Audit of internal workflows and implementation of new management tools (Gantt, Notion) reducing bottlenecks by 20%.
- **Cross-functional Management:** Coordination between departments to align business needs (insurance/finance) with company development objectives.
- **Risk Management:** Proactive identification of schedule deviations and implementation of remediation plans (corrective actions).

Intern - General Treasury

May 2023 - Aug 2023

Ministry of Foreign Affairs - Cotonou, Benin

- **Financial Analysis:** Active contribution to the production of the treasury management report (2022 fiscal year).
- **Administrative Management:** Organization and digitization of document flows to optimize access to budget information.
- **Research:** Conducted a critical analysis of the reliability of financial data, which served as the basis for my bachelor's thesis.

KEY ACHIEVEMENTS (HACKATHONS & TECH PROJECTS)

Lead Developer & Product Owner

ORBIT PRO - AI Powered Project Management SaaS Application

June 2026

- **Product & AI Design:** Design and development of a SaaS project management application integrating the Google Gemini API to provide AI-assisted analysis for strategic project management.
- **Front-End Architecture:** Development of interactive and fully responsive user interfaces using JavaScript ES6+, HTML5/CSS3, and Bootstrap 5.
- **Analysis & Decision Support:** Integration of an AI-powered analytical layer allowing evaluation of the correlation between budget, deadlines, and progress to facilitate decision-making.
- **Kanban Project Management:** Designing an interactive Kanban board (native drag & drop, real-time synchronization Dashboard ↔ Kanban, automatic delay detection) in pure Vanilla JavaScript.
- **Data Visualization:** Creation of dynamic analytical dashboards using ApexCharts, providing real-time visibility on key project performance indicators.
- **Reporting & Export:** Implementation of advanced PDF and Excel export features.

AI Architect & MCP Developer

AI Billing Agent - End-to-end Automation via Claude MCP

June 2026

- **MCP Architecture & Automation:** End-to-end AI billing agent via Claude MCP orchestrating 3 native tools (JSON pricing, PDF generation, automated SMTP delivery via Brevo) with zero manual intervention.
- **Dynamic Configuration:** Freelance identity, pricing, and payment conditions centralized in a JSON config file, editable without touching the codebase.

Lead Developer Front-End & Product Manager

Seguro Hotel Project

May 2026

- **Scoping & Planning:** Full writing of the functional and technical specifications and development of the operational schedule to ensure MVP delivery in a record time of 12 days.
- **Front-End Architecture:** Design and development of an MVP architecture using pure JavaScript (ES6+), HTML5/CSS3, and Bootstrap 5, ensuring a premium and fully responsive interface.
- **Business Logic & Data:** Implementation of a dynamic booking engine with data persistence via LocalStorage, enabling real-time synchronization with the Admin Dashboard.
- **Integration & APIs:** Automation of notification flows (instant confirmations for clients and hotels) through integration of EmailJS and Formspree services.

Product Owner

Klirô Project

April 2026

- **Product Vision:** Definition of the “Premium Tech” positioning and monetization strategy (subscriptions and mobile payments MoMo/Moov with incentives).
- **Team Management:** Leadership of 15+ designers distributed across 3 teams. Arbitration on brand identity (transition from an illustrative style to a minimalist and scalable design).
- **UX Optimization:** Design of a smooth booking journey ensuring conversion in under 2 minutes.
- **Deliverable:** Complete 30-page Design System and high-fidelity prototype validated by a panel of experts.

FORMATION

- **Professional Training in Web Development** Feb. 2026 - Ongoing
EIG BENIN
- **Bachelor’s Degree in Project Planning and Management** 2020 - 2023
National School of Applied Economics and Management (ENEAM)
